🗣️ English: Upper Intermediate (B2)

Professional Summary

Frontend Engineer with over 6 years of experience specializing in building scalable, high-performance web applications using React, TypeScript, and modern JavaScript frameworks. Proven track record in leading frontend teams, implementing micro-front end architectures, and enhancing user experiences across fintech, marketing, and gaming industries. Adept at agile methodologies, with a strong emphasis on code quality, accessibility, and continuous integration.

Core Technical Skills

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Vue.js, Next.js, Nuxt.js
- **State Management:** Redux Toolkit, Vuex, Zustand
- **Testing & QA:** Jest, Vitest, React Testing Library, Cypress, Percy
- **Styling & UI:** SASS, CSS3, HTML5, Storybook, Ant Design, Tailwind Css v3
- **DevOps & CI/CD:** Docker, Jenkins, GitLab CI/CD, GitHub Actions
- **Version Control:** Git, SVN
- **Agile Tools:** Jira, Confluence, Miro, Asana
- **Monitoring:** Datadog
- **Databases:** Familiar with MySQL, PostgreSQL, DynamoDB

Professional Experience

Endava

Senior Software Engineer

Nov 2021 – Present

- **Corporate Website Development (May 2023 – Present):**
 - *Architected and implemented the frontend using React and Tailwind CSS, ensuring a responsive and accessible user interface.*
 - *Integrated the site with HubSpot CMS to facilitate dynamic content management and marketing automation.*
 - *Established comprehensive testing strategies, including unit tests and end-to-end automation using Playwright, enhancing code reliability.*
 - *Configured and maintained CI/CD pipelines to streamline deployment processes and ensure continuous integration.*
 - *Continue to serve as the technical lead, overseeing ongoing development and maintenance, and coordinating with cross-functional teams to align technical solutions with business objectives.*
- **Data Management Platform (Sep 2022 – Apr 2023):**
 - Led the frontend development for a platform accessing extensive consumer credit bureau data.
 - Implemented micro-frontend architecture using React, Redux Toolkit, and Module Federation, enhancing scalability and deployment efficiency.
 - Integrated Storybook for component documentation and Testing Library for robust unit testing.
- **Web & Desktop Chat Application (Mar 2022 – Sep 2022):**
 - Developed an Electron-based desktop version of an existing Next.js web application.
 - Established a shared component library to ensure consistency across platforms, reducing code duplication.

- Set up CI/CD pipelines with GitHub Actions for automated testing and deployment.
- **Decentralized Gaming Platform (Jan 2022 – Mar 2022):**
 - Built user interfaces using Nuxt.js and Vuex for a blockchain-based cryptocurrency creation platform.
 - Collaborated with cross-functional teams to deliver a seamless user experience.

Globant

Software Engineer

Mar 2019 – Nov 2021

- **Quantcast Projects (Jul 2019 – Nov 2021):**
 - Contributed to multiple advertising technology projects, focusing on user authentication and permission management systems.
 - Implemented data visualization features using Highcharts to display key metrics.
 - Participated in the adoption of micro-frontend strategies to enhance modularity.
 - Maintained high code quality through unit and integration tests using Jest and Cypress.
 - Provided technical documentation and onboarding support for new team members.

Internship

Frontend Developer Intern

Mar 2019 – Aug 2019

- Enhanced skills in HTML, CSS, JavaScript, and React through hands-on projects.
- Gained experience in writing unit and integration tests.
- Improved English communication skills in a professional setting.

Education & Certifications

- **Coderhouse:**
 - Web Developer (2016)
 - Web Developer Level 2 (2017)
- **Ceibal:**
 - Web Developer (2018)

Languages

- **Spanish:** Native
- **English:** Upper Intermediate (B2)
